

100% Nylon • Non-Woven • PVC Free • Recyclable • Made in USA • Extremely Durable • Puncture & Tear Resistant

- Easy care
- Upholstery and wall application
- Puncture resistant
- Breathable
- Durable
- Resists Scratching and Peeling
- Heavy duty wear
- Stain resistant
- Almost Calf® and Almost Textura® with HealthGard® are Anti-Microbial & Anti-Bacterial
- Water resistant
- Tear proof

VARIETY

Luxurious look and feel with unlimited customizable colors to match any PMS shade of your choice. ALMOST® comes in 21 standard patterns and is available with custom embossing.

This revolutionary textile creates a strong construction that is highly durable and resists damage. Extreme wear-ability results with a 10-Year Warranty.

BREATHABLE

ALMOST® breathes in all temperature and is comfortable and breathable in any environment.

CLEANABLE

ALMOST® is easy to clean up with water and soap. If needed you can clean it with bleach and water 1:10.

STRENGTH and DURABILITY

Made of highly durable 100% Nylon. These nylon fibers are entangled in a fiber matrix, like the fibers in collagen.

RESISTS CRACKING, PEELING & DELAMINATING

The embedded colors and textures resist cracks, fading, tears and punctures. ALMOST® will never delaminate.

ALMOST® is manufactured using 100% microscopic nylon fibers that are entangled, like the fibers in collagen. This construction creates a breathable material that is comfortable in all temperatures, beautiful in appearance, and feels natural. The colors and textures are integrated with heat and pressure, directly into the base structure, creating a surface that will never delaminate. Almost is not made of two layers bonded together, but one single ply. It is also highly resistant to cracking, tearing, puncture and fading. ALMOST® can be formulated to use outdoors with enhanced UV protection and mildew resistance, quickly custom colored to match any desired color sample, and for environments needing antimicrobial resistance, ALMOST® Textura HG and Almost Calf HG collections come with HealthGard treatment as standard.

ALMOST® is a one-of-a-kind solution that is the unrivaled and exceptional choice for these installations:
