CLEANERS

- 1) Mild soap (such as Joy®, Dove®, Ivory® or other hand-dishwashing liquids) and water. Use a clean cloth or soft sponge to dab the stain with soapy water. Remove the soap solution by wiping the area with a cloth and clean water. Dry with a soft lint-free cloth or towel.
- 2) Mild petroleum solvent such as naphtha (lighter fluid) or mineral spirits (paint thinner). Lightly wipe the stain with a clean cloth that has been moistened with solvent. Blot the area and allow to dry.
- 3) One part Wisk® detergent and one part rubbing alcohol. Dab lightly with a cloth that has been moistened with the solution. Do not rub. As the ink loosens, blot the area with a dry cloth. Repeat if necessary. Rinse with a cloth dampened in clean water and dry with a soft cloth.

NOTE: Exercise proper care when using solvents or solvent cleaners. Some solvents are flammable. Read and follow manufacturer's directions on labels. Use with adequate ventilation and wear protective gloves
