HealthGard® Collection

ALMOST® TEXTURA

CONTENT:	100% Nylon / Non-woven / PVC Free
TREATMENT:	HealthGard® - EPA Registered Antimicrobial Permanent Additive
WIDTH:	54"
DURABILITY:	Exceeds 250,000 double rubs - Test Method: Wyzenbeek, Using Wire Screen
FLAMMABILITY CLASS:	1. California Technical Bulletin 117 - 2013. 2. ASTM E-84, Class A
CLEANING CODE:	W / S / B (Bleach Cleanable 1:10)
CUSTOM COLORS:	300 Yard Minimum – Contact Customer Service for additional information
OUTDOOR FORMULATION:	300 Yard Minimum – Contact Customer Service for additional information
WEIGHT:	7-8 oz. per square yard

Ordinary Cleaning: Soap and water, gentle non-abrasive spray cleaner (i.e. Formula 409®). Rinse and dry.

Ink: There are many formulations of ink. Please contact Customer Service for recommendations.

Disinfectants: Repeated use of disinfectants intended for hard, non-porous surfaces can damage the surface of Almost faux leather over time. Sanitizers and cleaners with alcohol content greater than 20% are not recommended for use on this product.

Disinfecting with Bleach: Prepare a bleach solution, no more than 10% (5000ppm available chlorine). EPA registered products are recommended, following the manufacturer's label instructions. Spray to wet the surface with the bleach solution. Allow it to remain for no longer than 10 minutes. Rinsing with clean water is recommended, as bleach has a drying effect.

Healthcare Cleaning: Pretested with many typical quaternary cleaners. Contact Customer Service for a list of tested healthcare cleaning products and procedures.

- **Puncture + Tear Resistant**
- **Breathable**
- **PVC Free**
- **Suitable for healthcare, education, and public spaces**
- **No Off Gassing**
- **Resists Scratching + Peeling**
