CLEANING CODE:	W / S / B (Bleach Cleanable 1:10)
CUSTOM COLORS:	250 Yard Minimum – Contact Customer Service for additional information

Ordinary Cleaning: Soap and water, gentle non-abrasive spray cleaner (i.e. Formula 409®). Rinse well and dry.

Ink: There are many formulations of ink. Please contact Customer Service for recommendations.

Disinfectants: Repeated use of disinfectants intended for hard, non-porous surfaces will damage the surface of ALMOST® faux leather over time. Alcohol based sanitizers and cleaners are not recommended for use on this product.

Disinfecting with Bleach:

- Wipe the faux leather with a damp cloth to remove all loose dirt and debris
- Prepare a bleach solution with a concentration not to exceed 10% (5000 ppm available chlorine)
- Use an EPA registered product whenever possible and follow the manufacturer’s label instructions
- Spray the wet the surface with bleach solution
- The bleach solution should remain on the faux leather surface for no longer than 10 minutes
- Thoroughly wipe off solution with a clean cloth and water
- Allow to dry before use

Healthcare Cleaning: Contact Customer Service for a list of approved healthcare cleaning products and procedures.
